# Priority Integration Queue

Skip the line. Your integrations go first.

For hotel groups with existing ERP, PMS, or data middleware stacks, the speed of the integration build is often the longest item on the implementation timeline. HITEC-sourced customers are placed at the front of the PurchasePlus integration queue for Dynamics 365, Oracle Opera, and EDI supplier connections, ahead of standard queue sequencing.

WHAT YOU GET

- Priority scheduling for Dynamics 365, Oracle Opera, and EDI integrations
- Dedicated integration engineer assigned within 5 business days of signing
- Integration scoping session booked before go-live kickoff
- Compressed integration timeline: weeks, not months
- No additional charge for priority queue status

HOW IT WORKS

Priority Integration Queue status is applied automatically to all HITEC-sourced contracts signed by 18 July 2026. Confirmed in writing at contract stage.
